

Abdul Haseeb | Full Stack Developer

E: mabdulhaseeb@gmail.com | M: +447362356425 | L: [LinkedIn](#) | A: London, UK G: [GitHub](#) W: [Portfolio](#)

SUMMARY

Having worked for 2 early-stage startups with approximately 3 years of experience, and an MSc from a University in London, I actively seek opportunities as a Full Stack Developer with expertise in React.js, Next.js, Node.js with Express.js, and SQL or NoSQL databases.

I have **a full-time right to work in the UK without sponsorship.**

EDUCATION

MSc in Data Science, 2:1 | Sep 2022 – Oct 2023

- **Modules:** Machine Learning & Deep Learning, Big Data, Visual Data Analytics, Ethics in AI
- **Dissertation:** Comparing Vision Transformers and Other Deep Learning Techniques on Plant Disease Detection (Distinction)

BSc in Computer Science, 3+ CGPA | Oct 2016 – July 2020

- **Modules:** Programming Fundamentals, Data Structures, Algorithms, Object-Oriented Programming

WORK EXPERIENCE

- **Full Stack Developer (Freelance)** | Ehawks Tech | Dec 2023 – Present
 - Developed a [CRM](#) for a distribution company using Next.js, Azure SQL with **100% Satisfaction**
 - Building and maintaining 2+ applications for multiple clients
- **Full Stack Developer** | CreditBook | Raised \$11 million pre-series A round | Feb 2022 – Sep 2022
 - Achieved **4.5+ rating** and **1 million+** users by shipping features that our users needed
 - Minimized **technical debt by 40%** by writing automated tests, using Typescript, code refactoring
 - Enhanced **scalability by 50%** by implementing a design system using StoryBook
- **Full Stack Developer** | LastingSales | UK Innovator Visa | July 2020 – Jan 2022
 - Shipped the product from **idea to deployment** in less than 3 months
 - Optimized core feature performance, enhancing user **productivity by 50%**
 - Migrated from Angular.js to React.js, improved overall **user experience by 80%**
 - Led a **team of 5**, including interns, developers, and designers
 - Achieved an increase in efficiency by 50%, by documenting the product roadmap

Projects

- **ResearchAI:** SaaS application that allows you to read the latest research papers as a newsletter.
 - **Technologies Used:** React.js, Next.js, OpenAI API, Stripe, Prisma, Clerk, Typescript
- **InterviewAI:** AI-generated Interview questions using your CV, Job description
 - **Technologies Used:** React.js, Next.js, OpenAI API, TailwindCSS, Upstash, Typescript

Skills

- **Frontend:** React.js, Next.js, HTML, CSS, JavaScript, TailwindCSS, Shadcn
- **Backend:** Node.js, Express.js, REST API, NoSQL, MySQL, MongoDB, Firebase, Supabase, NextAuth, Clerk
- **Tools & Testing:** Jest, TDD, Sentry, CI/CD, Jira, Trello, PostHog, Git, GitHub, GitHub Actions
- **DevOps:** AWS, GCP, Lambda
- **Others:** LangChain, OpenAI API, Stripe, Agile, Machine Learning (Scikit-Learn, TensorFlow, PyTorch)
- **Soft Skills:** Communication Skills, Team Player, Curiosity, Quick Learner, Go Getter
